Leading Growth and Transformation: How Leaders Accelerate Their Organizations' Progress to the Future

As the pace of commoditization accelerates and the emergence of technological disruption threatens our existing business models, we must transform our teams at a faster rate than the external environment is changing. This engaging, case-study rich session will unlock the keys to accelerating growth in your team and your organization. Peter will encourage you to have vision and create a setting for your team to thrive because organizations don't transform – leaders do.

Peter Sheahan, CPAE

After decades of standing in the fire with leaders of high-performing organizations, Peter Sheahan has come to believe that an organization will only go commercially where its leaders first go personally. Having grown his own companies by accelerating growth and transformation for Apple, Chick-fil-A, DeBeers, and AT&T -- Peter will provoke you to get bigger, by getting better! When leaders are true to their purpose, they gravitate towards doing work that matters and solving higher-order problems. In being true to his own ambitions and relentless pursuit of growth, Peter has published seven books, built three global companies and delivered more than 2,500 presentations in 40+ countries. Today he and his team at Karrikins Group are focused exclusively on inspiring leaders to do the hard work required to enable growth and transformation.

½ day - Friday, January 24, 2020
