Engaged Leadership: Building a Culture to Overcome Employee Disengagement

Research indicates that less than one-third of employees are truly engaged. The vast majority of employees simply show up to work each day prepared to do the minimum to get by. This problem of employee disengagement is a source of ongoing frustration for leaders of any organization. The solution for overcoming employee disengagement is *Engaged Leadership* . . . a proactive approach to leadership that involves building consensus for the vision, inspiring employees to pursue the vision, and developing the team to realize the vision.
